New Arrival

The perfect balance of compactness and superior optical performance. Kowa binoculars, high performance in a compact body.

Phase-Coated Roof Prism

The prism is phase-coated to ensure sharp images and outstanding contrast.

Fully Multicoated Optics

All lenses and prisms are fully multicoated, ensuring a clear visual range and sharp images.

“C³” Prism Coating

This new coating technology maximizes the reflectivity of the prism and reduces the loss of light, thereby achieving brighter and sharper images.

Close Focus

Twist-Up Eyecup for Ease of Viewing

Comfortable Rubber Coating

Waterproof and Filled with Dry Nitrogen Gas

*Not intended for use underwater.

Harmony of Sophisticated Design and Performance

BD42 Series

An ideal companion for bird watching or any other outdoor activity that requires a bright image and a wide field of view. These sleek binoculars come in 8x or 10x magnifications, in dark green housings that blend into your surroundings.

42mm Objective Lenses
Close Focus of 2 m (6.5 feet)

Advanced Optical Performance. Establishing a New Standard for Mid-Size Binoculars.
